

goniometrické funkce úhlů
pravoúhlého trojúhelníka

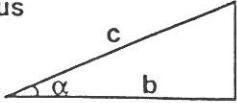

sinus

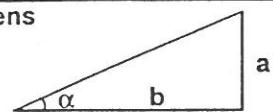

$$\sin \alpha = \frac{a}{c} = \frac{\text{protilehlá}}{\text{přepona}}$$

kosinus

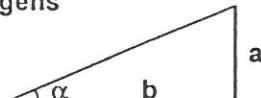

$$\cos \alpha = \frac{b}{c} = \frac{\text{přilehlá}}{\text{přepona}}$$

tangens

$$\tan \alpha = \frac{a}{b} = \frac{\text{protilehlá}}{\text{přilehlá}}$$

kotangens

$$\cot \alpha = \frac{b}{a} = \frac{\text{přilehlá}}{\text{protilehlá}}$$
